Numb. 3878

The London Gazette.

Published by Authority.

From Thursday January 7. to Monday January 11. 1702.

Copenhagen, January 6. N. S.

THE Envoy of *Pruſſia* had publick Audience yeſterday of the King and Queen of *Denmark*. In the Evening the King took the Diverſion of running at the Ring; There were 3 Prizes, whereof Monſieur *de Cheuſe*, Colonel of His Majeſty's Horſe-Guards, won the firſt, Baron *Holſt*, Firſt Gentleman of his Bedchamber, carried the ſecond, and Monſieur *Sheal* the third. This Morning the Queen was delivered of a Prince, whereupon the Cannon round the Town were thrice diſcharged, and this afternoon the young Prince was Chriſtened by the Name of *George*; And in the evening there were publick Demonſtrations of Joy through the City, ſuitable to the Occaſion.

Warſaw, Jan. 12. Conferences are frequently held here between the Cardinal Primate, the Imperial Envoy, and ſome other Perſons of note, who act on the part of the King of *Sweden*, and the King and the Republick of *Poland*, in order to find ſome Expedient for reſtoring the Peace of theſe Countries, and putting an end to the Calamities they have been ſo long under. In the mean time the *Swedes* continue to raiſe Contributions, particularly in *Ruſland*, where they have ſeized the Weywode of *Volhinia*, whom they look upon to be in the King of *Poland*'s Intereſt, and demand a conſiderable Sum of Money for his Ranſom. The Staroſt *Chelmski*, Governor of *Lemberg*, has reſolved, it is ſaid, to ſhut the Gates of that Place againſt them, and is making Preparations for his Defence in caſe they ſhould attack him. We have an Account from thence, That the Coſſacks, who have lately rebelled againſt the Crown of *Poland*, have taken the Town of *Bialacerkiow*, and commit ſuch Diſorders in the neighbouring Country, that moſt of the Inhahitants have choſe rather to quit their Habitations, and retire into the Woods, than be expoſed to their Barbarity. We hear 50 Companies of the Forces of the Crown have mutinied againſt their General, and entred into a Confederacy to aſſiſt the *Swedes*, or rather under that pretence to live at Diſcretion, and plunder the Country in imitation of the Coſſacks. The King of *Poland* has kept his *Chriſtmas* at *Thoorn*, but he intends to leave that Place ſhortly, and to reſide at *Elbing* or *Marienbourg*.

Vienna, January 3. The Elector of *Bavaria* has ſent Letters of Compliment to the Emperor and the Empreſs, and to the King and Queen of the *Romans*, upon the New Year, aſſuring them of his Zeal for their Service, yet his Troops continue their Hoſtilities againſt the Emperor and the Empire, and he is making great Warlike Preparations on the Borders of *Auſtria*. The Duke of *Moles*, late Ambaſſador from *Spain* at this Court, who has remained here ſince his Embaſſy was ended, is fallen under the Diſpleaſure of the King of *Spain*, who has cauſed his Eſtate to be Confiſcated. Cardinal *Grimani* arrived here two days ago from *Rome*, whoſe unexpected Journey hither has given occaſion to many Speculations, but the Truth of it ſeems to be that he is come only upon ſome private Affairs of his own, which require his preſence in this Place. A Courier arrived here the firſt Inſtant from *Italy* with the News, That the Duke of *Vendoſme* in Perſon came out of *Mantua* with a Body of 9000 Men, and ſome Artillery, to attack *Governolo*, on which Place he made two Aſſaults, but was repulſed in both, with the loſs of 1000 Men killed, and as many wounded. The Imperialiſts are ſaid to have loſt not above 40 or 50 Men; however Prince *Eugene* thought it not adviſable, by endeavouring too obſtinately to keep a Place that was not tenable, to run the hazard of loſing the Gariſon, and therefore ſet fire to the Town, having firſt withdrawn his Troops, Artillery and Ammunition, and he retired with his Forces to *Oſtiglia*, which Place he was fortifying, intending to maintain his Ground there againſt the *French* if they ſhould venture to attack it.

Ratisbonne, January 8. This Place affords but little News at preſent, the Imperial Diet being adjourned till after the Holidays, and the bad Weather and great Floods keeping both the Forces of the Allies and thoſe of the Elector of *Bavaria* from making any Attempt in theſe Parts. The Circles of *Swabia* and *Franconia* have writ to that Elector in very preſſing Terms, admoniſhing him not to diſturb the Peace of the Empire any longer, but to quit his unlawful Engagements with *France*; which can have no other Iſſue than the Ruin of his Family and of his Country. In the mean time Preparations are making to bring him to reaſon by more powerful Arguments, and in order thereunto, if he does not alter his Meaſures by the middle of this Month, 34000 Men are to be brought into the Field againſt him, whereof 10000 under the Command of the General *Schlick* and *Gratz* are to attack him on the ſide of *Auſtria*, 8000 commanded by General *Solari* are to do the like towards the Biſhoprick of *Saltsbourg*, 4000 Men under General *Geſchwind* on the ſide of *Tirol*, and 12000 under the Generals *Herberville* and *Thurheimb* on the ſide of *Bohemia*. Our laſt Advices from *Italy* give an Account of Prince *Eugene*'s having abandoned *Governolo*, after the *French* had been before it 5 days, in which time they loſt a great many Men, among whom are reckoned one of their General Officers, 2 Colonels, the Marquis of *Luzzara* Brigadier General and Colonel of the Duke of *Vendoſme*'s Guards, and ſome other Officers of Note. On the 30th of the laſt Month a ſtrong Party of *French* having paſſed the *Lake de Guarda* in 7 large Boats, attempted to Land at *Torbole* in the Biſhoprick of *Trent*, but were hindered by the Inhabitants, and the Militia of that Country were thereupon raiſed and poſted along the Frontiers to prevent any Surpriſe.

Berlin, January 6. The 18th Inſtant, being the Anniverſary of the King of *Pruſſia*'s Coronation, will be obſerved here with great Solemnity. It is ſaid he intends afterwards to go to *Magdebourg*, in order to have an Interview with the Duke of *Wolfenbuttel* and the Landgrave of *Heſſ-*

C *Caſſel*,
